

**-PRESS RELEASE-**

## **Ceruvia Founder and CEO, Carey Turnbull, to Appear at *Horizons New York* Psychedelic Business Forum**

**Greenwich, Connecticut, October 6, 2022** – Ceruvia Lifesciences, a leading neurotransformational medicine biopharmaceutical company, is pleased to announce that its Founder and CEO, Carey Turnbull, will appear at *Horizons New York* on Thursday, October 13, for an interview with Bloomberg reporter Tiffany Kary. The interview, taking place at 4:30pm Eastern Time at the New York Academy of Medicine, will focus on Turnbull's views regarding how to build a flourishing, ethical and equitable ecosystem for access to psychedelic medicines.

"Given Horizons New York's stellar reputation for delivering leading-edge content since its inception in 2007, I am greatly looking forward to this opportunity to participate in this important forum for the discussion of psychedelic science and business", said Carey Turnbull, Founder and CEO of Ceruvia Lifesciences. "Psychedelic medicine is entering a critical phase as we move closer to the first FDA approvals of treatments, and this conference will provide an important opportunity for those of us dedicated to this endeavor to take stock and outline a vision for its future success."

For further details or to register to attend, please visit: <https://www.horizonspbc.com/newyork>  
Discounted tickets to attend in-person may be purchased using the code: CERUVIA-HNY-15

### About Ceruvia Lifesciences

Founded in 2017, Ceruvia Lifesciences is a clinical-stage biopharmaceutical company with a mission to improve the lives of underserved patients suffering from neurological and psychiatric disorders. Founded by Carey Turnbull, Ceruvia is relentlessly focused on the development and commercialization of neurotransformational medicines to deliver meaningful relief to patients

suffering from hard-to-treat headache disorders, OCD and substance abuse disorder. For too long, these communities have been poorly understood and under-served. At Ceruvia, we believe they no longer have to live this way. With a long history of partnership with leading researchers at Yale University School of Medicine, NYU School of Medicine and Harvard Medical School, Ceruvia is undertaking clinical research in order to help them return to living their lives to the fullest.
